

HP TECHNICIAN STUDY, EMEA-2018

HP ServiceOne Partners Who Have Serviced HP LaserJet printers with Original HP and Non-HP Toner Cartridges Installed

January 2018

EXECUTIVE SUMMARY

This study examines the experiences of 147 HP ServiceOne Partners who were either technicians or technician managers who provide on-site or off-site service for HP LaserJet printers in EMEA. Specifically, in:

- > WEU: UK, Ireland, France, Germany, Italy, Austria, Belgium, Netherlands, Portugal, Spain, Sweden
- > CEE: Russia, Ukraine, Poland, Hungary, Czech Republic, Croatia, Romania
- > MEMA: South Africa, Saudi Arabia, UAE, Egypt, Morocco, Qatar, Turkey

The technicians and managers have at least 6 months of experience servicing HP colour or monochrome (mono) LaserJet printers and have serviced HP colour or mono LaserJet printers with Original HP cartridges or non-HP cartridges installed in the past 12 months.

147 respondents were surveyed, and 223 surveys were completed. Some respondents qualified for both the colour and mono surveys. 147 companies participated. Respondents serviced 37,315 printers in the last year.

Overall, the study found that a majority of technicians report that using Original HP toner cartridges instead of non-HP toner cartridges can reduce the number of service calls on HP LaserJet printers. In particular, 95% of technicians said that using Original HP toner cartridges is important or essential in minimizing service calls. Furthermore, most technicians think that using non-HP toner cartridges may shorten the life of the printer. Most technicians recommend using Original HP toner cartridges over non-HP cartridges for use in HP LaserJet printers.

OBJECTIVES AND METHODS

HP ServiceOne Partners:

- > Deliver services that support the HP hardware portfolio of commercial and enterprise technologies.
- > Handle any break/fix support issues across both enterprise and commercial HP technologies.
- > Meet HP's most rigorous technical certification requirements.
- > Can sell Original HP supplies and/or non-HP supplies.

RESEARCH OBJECTIVES

Quantify and assess:

- > The types of problems and frequency of service calls associated with the use of non-HP cartridges compared with Original HP cartridges.
- > The impact of using Original HP cartridges on reducing service calls.
- > The impact of printer maintenance kits and printer cleanliness when a non-HP cartridge is used compared with an Original HP cartridge.
- > The impact on the life of the printer when non-HP cartridges are used.
- > Whether HP ServiceOne Partners are more or less likely to recommend Original HP cartridges than they are to recommend non-HP cartridges, and why.

RESEARCH APPROACH

20-minute phone surveys conducted from October 20th-November 24th 2017 with respondents who:

- > Live in UK, Ireland, France, Germany, Italy, Austria, Belgium, Netherlands, Portugal, Spain, Sweden, Russia, Ukraine, Poland, Hungary, Czech Republic, Croatia, Romania, South Africa, Saudi Arabia, UAE, Egypt, Morocco, Qatar, or Turkey.
- > Are 18 years or older.
- > Are certified technicians who provide on-site or off-site service for HP LaserJet printers.
- > Have at least 6 months of experience servicing HP colour or mono LaserJet printers, and have serviced an HP colour or mono LaserJet printer with a non-HP cartridge installed in the past 12 months.

RESPONDENT INFORMATION

- > 147 respondents were surveyed, and 223 surveys were completed. Some respondents qualified for both the colour and mono surveys.
- > 147 companies participated.
- > Respondents serviced 37,315 printers in the last year.

SAMPLE SIZES

Note: Some respondents qualified to answer survey questions for both monochrome and colour LaserJets, so are counted in both samples. This is why the total number of respondents is less than the sum of monochrome plus colour LaserJet surveys.

	WEU	CEE	MEMA	Total
Total	104	90	29	223
Mono	51	49	16	116
Colour	53	41	13	107

FINDINGS

Major Study results:

- > Printer technicians reported that 22% of the problems caused by non-HP cartridges resulted in damage to the printer where the printer may require cleaning, repair or replacement.
- > Printer technicians reported that 29% of the problems caused by non-HP toner cartridges are due to cartridge failures, such as toner leaks, premature failures, and failing right out of the box.
- > Printer technicians reported that 51% of the problems caused by non-HP toner cartridges are cartridge failures and printer damage.
- > Printer technicians reported 49% of the problems caused by non-HP toner cartridges are due to print quality issues, such as streaks, smears, or dots.
- > 89% of technicians said that HP LaserJet printers with non-HP cartridges installed require more service than those with Original HP installed.
- > 95% of technicians said that using Original HP toner cartridges is important or essential in minimizing service calls.
- > Printer technicians are almost 4 times as likely to service a printer due to problems caused by the use of non-HP toner cartridges compared to customers using Original HP cartridges.
- > 84% of printer technicians reported that HP LaserJet printers using non-HP toner cartridges required more cleaning, repairs, and replacements than those using Original HP cartridges.
- > 86% of printer technicians said they replace the maintenance kits and other parts on HP LaserJet printers more often when non-HP cartridges are used, and 56% of these technicians said they replace them at least twice as often.
- > 93% of printer technicians reported that the use of Original HP cartridges helps minimize service costs associated with cartridge issues and service calls.
- > 60% of printer technicians reported that the use of Original HP cartridges significantly helps reduce service costs associated with cartridge issues and service calls.
- > 95% of printer technicians said they clean HP LaserJet printers more often when non-HP cartridges are used, and 79% of these technicians said they clean it at least twice as often.
- > 75% of printer technicians said they clean the HP LaserJet printer at least twice as often when non-HP cartridges are used.
- > 80% of technicians said that using NHP shortens the life of the printer, 31% say it significantly shortens the life of the printer.
- > 98% of technicians use the new/genuine HP maintenance/fuser kits and parts.
- > 86% of printer technicians said Genuine HP LaserJet maintenance and fuser kits and parts are more reliable than aftermarket kits and parts.
- > 85% of technicians said that genuine HP maintenance/fuser kits and parts have longer life than aftermarket maintenance/fuser kits and parts.

- > 48% of printer technicians said they replace the maintenance kits and other parts on HP LaserJet printers at least twice as often when non-HP cartridges are used.
- > Printer technicians are almost 3 times as likely to make a service call due to the use of aftermarket maintenance/fuser kits and parts compared to customers using New/Genuine HP maintenance/fuser kits and parts.
- > 57% of printer technicians said the use of New/Genuine HP maintenance/fuser kits and parts lowers the cost by at least a 2X factor vs. aftermarket kits and parts.
- > Printer technicians recommend Original HP over non-HP toner cartridges because...
 - 89% said HP cartridges are the most reliable.
 - 86% said HP cartridges have the best print quality.
 - 87% said HP cartridges require less service.

SERVICE CALL TIME AND COST

- > On average, how much is your trip charge? €46.80 for WEU, €9.43 for CEE, €24.23 for MEMA
- > On average, how much do you charge a customer for an average on site printer repair, not including parts fees, when it is not covered by warranty? €88.44 for WEU, €24.18 for CEE, €34.53 for MEMA
- > On average, about how many minutes does it take you to travel to a customer site when you're going to service a colour/monochrome? 40.6 minutes
- > Once you're at a customer's site, about how many minutes, on average, including time spent both diagnosing and resolving the problem in your response, does it take you to service a problem caused by a colour/mono cartridge? 38.3 minutes

ABOUT MARKET STRATEGIES INTERNATIONAL

Market Strategies International is a market research consultancy with deep expertise in communications, consumer goods, energy, financial services, healthcare and technology. The firm is ISO 20252 certified, reflecting its commitment to providing intelligent research, designed to the highest levels of accuracy, with meaningful results that help companies make business decisions with confidence. Market Strategies conducts qualitative and quantitative research in 75 countries, and our research specialties include brand, communications, customer experience, product development, segmentation, and user experience. Founded in 1989, Market Strategies consistently ranks as one of the 25 largest global market research firms, according to an annual report published in Marketing News. Read Market Strategies' blog at FreshMR, and follow us on Facebook, Twitter and LinkedIn.
